December 14, 2020

Dear Tiger Family,

This year, the Department of Education has granted districts permission to teach virtually on inclement weather days. Therefore, if the District is forced to close the buildings for in-person instruction due to inclement weather, then all students will be taught remotely following their normal schedules. We have also developed a contingency plan consisting of asynchronous activities should the township experience any power outages. These activities can be accessed by clicking [here](#). Have a great week.

Yours in education,

Nicholas Diaz, Superintendent
