

UNION TOWNSHIP SCHOOLS

Dr. NICHOLAS A. DIAZ, Superintendent

September

23,

2022

Dear Tiger Family,

We discovered a small amount of mold in room 135 in the middle school. Upon this discovery, we immediately closed the classroom and had a sample of the suspected mold tested by an environmental services firm. The test confirmed that mold was present. The classroom is being treated by a professional mold remediation company and students and staff are expected to return to their classroom by the end of next week.

As an added precaution, the entire building was checked and we can confidently say that no additional mold was found. In addition, we will be conducting air-quality tests to ensure everyone's safety. As always, the health and safety of the entire school community is paramount. Should anything change, we will inform you promptly.

Yours in education,

Dr. Nicholas Diaz, Superintendent
